SUMMARY

I am a highly skilled and experienced software engineer with over 4 years of hands-on experience in designing and developing robust and scalable applications. Proven expertise in full-stack development, system architecture. Passionate about creating efficient, high-quality and clean code while staying up-to-date with the latest industry trends and best practices. I have always loved working with a technically strong team where I can solve complex problems with a good balance of freedom and responsibility. A highly adaptable, passionate learner with a strong work ethic and team collaboration skills.

EXPERIENCE

[Xpressglobe](#)

September 2022 – Present

Full stack Developer

Lagos

- Developed server-side logic, databases, and APIs to optimize application functionality.
- Ensured cross-platform optimization for mobile responsiveness.
- Managed end-to-end project lifecycles, from conception to deployment.

Achievements:

- Spearheaded the implementation of a new caching strategy, resulting in a 30% improvement in application loading times.
- Led a team in developing a scalable API architecture, facilitating smoother communication between front-end and back-end systems.

May 2022 – June 2022

Frontend Developer

Lagos

- Implemented new user-facing features with a focus on user experience.
- Collaborated with UI/UX designers to ensure technical feasibility and optimization.
- Optimized application performance for speed and scalability.
- Conducted thorough user input validation to enhance backend processes.

Achievements:

- Introduced a responsive design framework, resulting in a 20% increase in user engagement across mobile devices.
- Spearheaded a code refactoring initiative, reducing page load times by 25% and improving overall application performance.

[Snapilabs](#)

October 2021 - April 2022

Software Engineer Intern

Port-Harcourt, Nigeria

- Designed and developed responsive UIs for mobile and web applications.
- Executed cross-platform optimizations to enhance user experience.
- Contributed to the development of new features and APIs.
- Explored and utilized relational databases such as MySQL for data management.

EDUCATION

Federal Polytechnic, Auchi. Nigeria.
Electrical Electronics Engineering

October 2018

OTHER

- **Technical Skills:**

- Languages: JavaScript, PHP, HTML & CSS, Typescript.
 - Libraries/Frameworks: React, Nextjs, vuejs, pinia, vuex, Bootstrap, Tailwindcss, laravel, jQuery, Nestjs.
 - Database: MySQL, PostgreSQL, NOSQL, MongoDB
 - Version Control: Git, Github.
 - Frontend Unit Testing, Responsive Web Design.
 - Project Management: Agile Methodology and SCRUM
 - Operating System: Linux (Ubuntu) and Windows
-
- **Soft Skills:** Communication, Adaptability, Problem Solving, Emotional Intelligence, Leadership, Excellence, Empathy.
 - **Languages:** English (native)

PROJECTS

Dev Meets:

- I provided support in handling community weekly sessions with developers on tech-related topics with over 300 developers.

Getnshare:

- Developed an online social-media-focused inventory of thousands of recipes for food, desserts, appetizers, salads, and snacks. I built it to provide a community for food enthusiasts, chefs, restaurants, and foodie.
